

How in the Hell?

The Phoenix Within

How In The Hell?

By: Omar Feliciano

Verse 1:

To destroy your dreams & scar your mind is all I ever really want
We sacrificed an unborn one for the sake of living happily
It's irrelevant for you to ask whether on my mind is where you've been
Nothing that I've done since then has ever washed my hands of this

Verse 2:

Past the smoke & flames of trust to the hell we built inside of us
I drink because I want to kill the liver deep inside of me
Let it rot & let it die like the love you claim to have for me
Nothing that I've done since then has ever washed my hands of this

Pre-chorus:

Crack my ribs & crush my heart
I loved the way your legs would part
Stab my face & tie my arms
We quickly turn & come undone

Chorus:

How in the hell, will we make our way out?
How in the hell, do we get ourselves back?
Where do we turn when we're lost in the dark?
How in the hell, did we fall apart?

Bridge:

Crack my ribs & crush my heart
I loved the way your legs would part
Nothing that I've done since then has ever washed my hands of this
