

# Everybody Needs Somebody

[Billy Valentine](#)

Life on your own, don't really make you free  
You can't put your arms around a memory  
A little bit of soul is worth more than goldEverybody needs somebody  
Everybody needs somebody  
Everybody needs somebody  
I need youThe lonely days and nights were paved with dreams  
I've loved and lost and I do believe  
A little bit of soul, is worth more than goldEverybody needs somebody  
Everybody needs somebody  
Everybody needs somebody  
I need youEverybody needs somebody  
Everybody needs somebody, ooh yeah  
Say everybody needs somebody  
I need youWe got to get together babe  
We got to get together babe  
We got to get together babe
