

Archer On The Beach (Feat. Tim Hecker)

Destroyer

careful now watch your step in you go
the ash king is made of ashes the ice queen is made of snow
and archers where you left him
with his arrow stuck inside a peach
awake on your crutches in the moonlight
archer on the beach
careful watch your step in you go
the ass kings made of asses the ice queen's native snow
and archers where you left him
with his arrow slightly out of reach
impossible raver on your deathbed
archer on the beach
careful now watch your step in you go
the ice queen's made of ashes the ash kings made of snow
and archers where you left him
with his arrows all in a heap
stapled to the neck of the storm
archer on the beach
careful now watch your step in you go
careful now watch your step in you go
careful now watch your step in you go
