

Garden

Magnapop

On the way near a truck stop
That's behind my evil haven
There is a garden, he is a garden Are you mad yet? Can't connect it
When you try to do you know?
He is evil, you are mad
Are you mad yet? Known a comfort, known a mia
Known a scary ancient feeling
He is a garden, he is a garden Are you mad yet? Separate it
Do you know what they do?
When they say it feels like comfort
I can't find it, tried to run
But I'm the only one Sedentary, lonely contact
No connection, fee or feeling
He is a garden, he is a garden Scrap it all before summer
Kill the person that you fight with
Remain single there your strength is
Live for freedom not for struggle He is a garden, he is a garden Scrap it all before summer
Kill the person that you fight with
Remain single there your strength is
Live for freedom not for struggle
