

# A-List

## Wstrn

I'm just in my, in my zone, yeah-yeah-yeah  
(I wanna know) I wanna know, wanna know what your name is  
Put you in a song, make you A-List  
You could be the one who could say "ooh"  
Oh, I wanna know  
Why you reckon that you don't know what your name is?  
You been tryna fight it for ages  
What your name is, I'ma make you say "ooh" I wanna know what your name is and what your name means  
We got a lot of time on the eighteens  
We can live our life in the mainstream  
I ain't tryna click clack, hit that  
I'm tryna hit that, big back, big fat  
Sweet tunes give you big plaques  
Fits that, tell the truth baby, switch that  
Will back, big bang baby  
Cut style on 'em, you know I'm the man baby  
So I gotta send a shoutout to my fans baby  
You know what I'm on, put you in a song  
Doin' what I can, so I can't go wrong  
I told you, my name's Akelle, tell me yours baby  
We can go home, I know yours, baby  
You know I make you go "ooh" (I wanna know) I wanna know, wanna know what your name is  
Put you in a song, make you A-List  
You could be the one who could say "ooh"  
I wanna know  
Why you reckon that you don't know what your name is?  
You been tryna fight it for ages  
What your name is, I'ma make you say "ooh" Baby, tell me why you trippin', girl I'm diggin' your style  
We've been lookin' for a while  
No pressure, just wanna know what your name is  
I told you mine is Haile baby, come and shake it  
I show you what you missin' while you listenin'  
Better picture you and me, we kickin' it  
In the three, we just in our zone, yeah yeah yeah  
Take you to the west end of the city, where it's made  
Oh my, don't lie  
Oh my, no lie  
If I'm bein' honest, I want more than your name  
See them niggas over there, we ain't the same

Oh my, don't lie  
Oh my, don't lie  
Baby, all you gotta do is lead the way  
I'll make you say "ooh"(I wanna know) I wanna know, wanna know what your name is  
Put you in a song, make you A-List  
You could be the one who could say "ooh"  
I wanna know  
Why you reckon that you don't know what your name is?  
You been tryna fight it for ages  
What your name is, I'ma make you say ooh  
I wanna know your name  
I wanna know your name  
I wanna know your name  
I wanna know your name Look, I seen you round the way  
I'm tryna build the confidence to confiscate your brain  
Take a higher word to messiah, meh, I know your name  
I want you on your back, 'cause you know I like your face  
So mama, come on, groove with me, ooh missy competition should be choosing me  
You and me, I and I, Haile Selassie I, highly ackee and I  
Build on some tannins and I, badness at back of my mind  
So come walk with me, talk with me, intuition into tall cities, now it's more silly  
Got the ex girl callin' me, but it's poor really  
'Cause it's always fallin' short with me, that's sure really  
So won't you take a stroll with me, girl?  
I could put you fast asleep, girl  
And I can make you scream  
I make you say oh(I wanna know) I wanna know, wanna know what your name is  
Put you in a song, make you A-List  
You could be the one who could say "ooh"  
I wanna know  
Why you reckon that you don't know what your name is?  
You been tryna fight it for ages  
What your name is, I'ma make you say "ooh", oh yeah  
Oh yeah  
I'm just in my zone, whoa-whoa
