Down On My Head (Acoustic)

Yellowcard

I work all night for one more day
That I can say I'm all alone, alone
I just need time and I will say
What I believe and I'll come home, homeAnd all I know
That I never thought I would wake up in bed
Watching the world coming down on my head
I'd sleep like a dog if you would never've said
This is the world coming down on your headAs life flies by, I'm not sure
How I'm gonna do this all again, again
So line by line I write this down
And I'm just trying to find the end, the endAnd all I know
That I never thought I would wake up in bed
Watching the world coming down on my head
I'd sleep like a dog if you would never've said
This is the world coming down on your headYou gave it to me, I remember it read
You've got the world coming down on your head
There's nothing to fight for, it's already dead
And this is the world coming down on my headWhen will it all end? When will it all end?
(One of you moves, the others follow you)
When will it all end?
(One of you moves, the others follow you)I never thought, I would wake up in bed
Watching the world coming down on my head
I'd sleep like a dog if you would never've said
This is the world, coming down on your headI'm not gonna swallow the lie that I'm fed
'Cause I want the world coming down on my head
And you're gonna find out, you're already dead
And I was the world coming down on your head
