

Be Careful (feat. R. Kelly)

Sparkle

Two years ago, promises is all I heard, wait a minute, let me finish
Two years ago, promises is all I heard out of your mouth
And now you wanna walk away, boy and tear down the walls in this house
You used to tell me sweet things, sweet things in the morning time
Now all you do is hurt me and think that everything is fine You better be careful what you say to me
'Cause it might turn around on you
You better be careful what you do to me
'Cause somebody might do it to you Now who was there for you when your ass was out of work,
All by myself, taking little man to church
So quick to hang up the phone when I step in the room
Then you want to turn it all around, I'm gettin' tired of playing fool You better be careful what you say to me
'Cause it might turn around on you
You better be careful what you do to me
'Cause somebody might do it to you If the shoe fits, wear it, boy
If the shoe fits, wear it, boy Two years ago, didn't know you had male friends
Wait a minute, let me finish
Two years ago, didn't know you had male friends off up in college
I found out you're still reaching out to some of them Mrs. Busy Body
You used to listen to me when you were down and lost
But now, you don't even respect me ever since I got laid off You better be careful what you say to me
'Cause it might turn around on you
You better be careful what you do to me
'Cause somebody might do it to you Now who gave you money when your ass was broke without a doubt,
And even though the man is not my child, I made him mine
So quick to run to your friends and talk about what we do in this house
And then you wanna party all night long, what the hell you talking 'bout? You better be careful what you say to
me
'Cause it might turn around on you
You better be careful what you do to me
'Cause somebody might do it to you If the shoe fits, wear it, girl
If the shoe fits, wear it, girl
