

Bring It Back Again

House Rules

Bring it back, bring it back, bring it back again
Bring it back, bring it back, bring it back againI cruise around with the radio on
 Make me feel alright, make me feel alright
 Wide open highway and the sun going down
Make me feel alright, make me feel alrightI grab my guitar and pick out a song
 You wear that pretty dress, we never could go wrong
 We had no money but never seem to care
 Our love took us everywhereBring it back again
 (Bring it back, bring it back, bring it back again)
 Bring it back again
(Bring it back, bring it back, bring it back again)I cruise around in a rag top ride
 Make me feel alright, make me feel alright
 But now I got no one by my side
Make me feel alright, make me feel alrightThough I never share my memories
 No one by my side to comfort me
 I need your little hand to hold in mine
 Got to hold you all the timeBring it back again
 (Bring it back, bring it back, bring it back again)
 Bring it back again
(Bring it back, bring it back, bring it back again)Is it any wonder why I love you so?
 Oh, you were my first love
 When your arms met mine
You just stole my heart for all timeBring it back again
 (Bring it back, bring it back, bring it back again)
 Bring it back again
(Bring it back, bring it back, bring it back again)I cruise around with the radio on
 Make me feel alright, make me feel alright
 Wide open highway with the sun going down
Make me feel alright, make me feel alrightThough I know I'm the only one to blame
 I've had enough of this sorrow and pain
 I know that deep down you still feel the same
 Bring me your love back againBring it back again
 (Bring it back, bring it back, bring it back again)
 Bring it back again
(Bring it back, bring it back, bring it back again)Come on, bring it back again
 (Bring it back, bring it back, bring it back again)
 Bring it back again
(Bring it back, bring it back, bring it back again)Come on, bring it back again
 (Bring it back, bring it back, bring it back again)

Bring it back again

(Bring it back, bring it back, bring it back again) Yeah, bring it back again

(Bring it back, bring it back, bring it back again)

Oh, bring it back again
