

# I'm Having a Ball

Marty Robbins

I'm having a ball, goin' out on the town every night  
I'm paintin' it red, remember you said  
That I'd be crying when you were out of sight Instead I'm having a ball  
And I'm makin' new friends every day  
I seem to forget that we ever met  
And I am laughing in just the same old way Before I met you, my life was running smooth  
Then you came along, gave that old song and dance But now, I'm having a ball  
Goin' out on the town every night  
It's goodbye to you, I'll never be blue  
'Cause you're not worthy you see
