

# It's All Over

## The Everly Brothers

It's all over, didn't even cry  
I just stop living when you said goodbye  
It's all over, can't you feel a thing  
I just stop living, couldn't stand the pain  
There are no light leaves in September  
Lips as fresh as spring  
Love that warms like summer sun  
Shouldn't die when winter comes  
It's all over, didn't even cry  
I just stop living when you said goodbye  
It's all over, it's all over
