

# All I Want Is You

## Michael Franti & Spearhead

All I want is you, all I want is you  
All I want is you  
Wise folks count their blessings  
Fools count their problems  
But you're both of them to me  
Because you're beautiful  
You're so frickin' beautiful  
You took all my memory  
And all I want is you, all I want is you  
All I want is you, all I want is you  
All I want is  
Don't tell me you love me  
If you don't really love me  
But you could still kiss me  
So I need you to kiss me  
Because you're beautiful  
You're so frickin' beautiful  
You took all my memory  
And all I want is you, all I want is you  
All I want is you, all I want is you  
All I want is  
I love you in the daytime  
I love you in the nighttime too  
I love you in the moonlight  
I love you in the sunshine too  
I love you all of life time  
I love you when the  
All I want is you, all I want is you  
All I want is you, all I want is you  
'Cause there's life in this love  
And there's love in this life  
There is life in this love  
And there's love in this life  
There is life in this love  
And there's love in this life  
There is life in this love  
And there's love in this life  
Wise folks count their blessings  
Fools count their problems

But you're both of them to me  
And all I want is you, all I want is you  
All I want is you, all I want is you  
All I want is you  
(Life in this love, love in this life)  
All I want is you  
(Life in this love, love in this life)  
All I want is you  
(Life in this love, love in this life)  
All I want is you  
(Life in this love, love in this life)  
All I want is you  
(Life in this love, love in this life)  
All I want is you  
(Life in this love, love in this life)  
All I want is you  
(Life in this love, love in this life)  
All I want is you  
(Life in this love, love in this life)  
Daytime, nighttime too  
Moonlight, sunshine too  
Daytime, nighttime too  
All I want is you, all I want is you
