Daylight

Kenna

Daylight, leave the shadows falling behind
Put your depressed sedations to rest
There's nothing, nothing to medicate
Let the rush of the spirit find meI'll go, I'll go for daylightDaylight, leave the black life and dark filled rage
And let all obsessions fade
The constant, the constant is love
With you, with youHey love, hey love
Hey love, hey loveWe all wanna rise
Seconds, seconds they fly by, yeah
We all wanna rise
We all wanna see light
We wanna see lightWe all wanna rise
Seconds, seconds still fly by, yeah
We all wanna rise
We all wanna see light
We wanna see light, yeah, yeahDaylight, daylight, daylight
