Work It

Ylvis

Let me see them asses on the floor
This one commin at you B-style, Brovis
East Coast party style, bitches goin' crazy
Booty shakin' - never ceases to amaze me
Girl, I wanna get you into my bed
But we ain't gonna sleep, we make love instead
Your vagina is a self-cleansing muscular tract
With over 50 000 nerve cells ready to act
In fact, 6.5 inches side to side
And with a pH-value of 4.5
When you become aroused, blood flow increases
To the vagina, labia and clitoris
The inner walls of the vulva expanding
As well as increasing vaginal lubrication

Let me see you work it, come on let me work it
I wanna see you work it, come on!

(You gotta work it) he means you gonna have sex
(You gotta work it) he's not literally talking 'bout working, oh baby
You gotta work that body right
(You gotta work it) again he's talking 'bout sex
(You gotta work it) we're not talking 'bout a traditional employment situation
You gotta work that body right

Back in my crib, sippin' on the bubbles
Chillin' in my pool doin' time with my models
Bitches in the tub in oil and lube
It's the D-51 with aluminium tubes
We got five main nozzles in the front and the back
Driven by a motherfucking po-po-power-pump-pack
Got the non-slip surface, and the stainless construction
And the FX2-faucet for maximum suction

But what about bacterias?
How do I them from growing?
That's what I'm talking about, baby
Cause I've been worried 'bout the combination
Of water and aluminium and very high temperatures
But I guess I have to trust them, the jacuzzi factory

They're professionals, goddammit!
They should know how to do it

You gotta blow it
He's not referring to the sucking of the cock
You gotta blow it
Not a metaphor this time baby
You gotta blow it
We're talking about actually blowing bubbles into water
You gotta pump it
Now he is talking about the pump
You gotta squeeze it
He's referring to the valve that controls intensity
You gotta stroke it
Now I don't know what he's talking about
You gotta stroke it tonight
You gotta work it
