

# I Am Yours

## Derek and the Dominos

I am yours, however distant you may be  
There blows no wind but wafts your scent to me  
There sings no bird but calls your name to me  
Each memory that has left its trace with me  
Lingers forever as a part of meI am yours, however distant you may be  
There blows no wind but wafts your scent to me  
There sings no bird but calls your name to me  
Each memory that has left its trace with me  
Lingers forever as a part of meI am yours, however distant you may be  
There blows no wind but wafts your scent to me  
There sings no bird but calls your name to me  
Each memory that has left its trace with me  
Lingers forever as a part of meI am yours
