

# Before I Knew Your Name

[Mark Erelli](#)

(Mark Erelli) I walked these streets before I knew your name  
Now you're by my side and nothing seems the same  
Has everything been turned around or am I the one who changed  
I walked these streets before I knew your name I knew this town before I dreamed of you  
Back when the whole place only came in shades of blue  
Nowadays it seems that dreaming's all I ever do  
I knew this town before I dreamed of you On every street my memories unravel  
There's a history down each winding avenue  
These days the only roads I seem to travel  
Are the ones that always bring me back to you
