

That's Why I Wanna Fight

Mya

Darkchild two thousand
Uh, come on
I like that, uh
Mya, you ready?
Put your gloves on
It's on, let's go We fight all day
Make up all night
Our love's up and down
It makes the mood just right
For us to do what I love to
So if I pick a fight
You know what I'm up to
Don't shake your head
Baby instead
Give into me this fight
You won't forget
I promise you when we're through
You won't hesitate to say I'm sorry hoo I just want to make up
'Cause I want you so much
That's why we have to stay
Gettin' into it, somedays
Never endin' it
Don't get mad at me
Sometimes I get the strangest needs
That's why I turn to you
So you can handle it baby
You're the man for it We gotta make up tonight
That's why I wanna fight with you
Break the rules
So we can get it right
And I'll show you how I do
I wanna fuss and fight
Then make it up tonight If I'm forced to make up with you
There's nothing left to say
But my plan went cool
So that's when you apologize too
Then ask baby is there something you can do
Then I'll say yes, half undressed
Then I'm pretty sure that you can handle the rest

So how do you like the new game that I play?
When I really want you I just want to make up
 'Cause I want you so much
 That's why we have to stay
 Getting into it, someday
 Never endin' it
 Don't get mad at me
Sometimes I get the strangest needs
 That's why I turn to you
 So you can handle it baby
You're the man for it We gotta make up tonight
 That's what I wanna fight with you
 Break the rules
 So we can get it right
 And I'll show you how I do
 I wanna fuss and fight
 Then make it up tonight Mya
 Yea, yea, yea
 Yeah uh darkchild we don't stop
 Mya we don't stop, uh
And if you feel that let me see you dance
And if you like that let me see you dance
And if you want that let me see you dance
And if you with that let me see you dance We gotta make up tonight
 That's why I wanna fight with you
 Break the rules
 So we can get it right
 And I'll show you how I do
 I wanna fuss and fight
Then make it up tonight We gotta make up tonight
 That's why I wanna fight with you
 Break the rules
 So we can get it right
 And I'll show you how I do
 I wanna fuss and fight
Then make it up tonight Gettin' into it
 Never endin' it
 So you can handle it
 You're the man for it
 Gettin' into it
 Never endin' it
 So you can handle it
 You're the man for it
 Gettin' into it
 Never endin' it

So you can handle it
You're the man for it
 Gettin' into it
 Never endin' it
So you can handle it
You're the man for it
 Gettin' into it
 Never endin' it
So you can handle it
You're the man for it
