Agnostic Front

You're the lowest form of life
You don't deserve to take another breath in this world
Your perverted mind will bring you down to this
She's barely ten years old, you're fucking sickKill yourself suicide, it's about time you fuckin' die
Kill yourself suicide, kill yourself suicideYou've got a sick mind with no problem
Kidnap a little girl, tie her up and all that
Built a secret room to hide her from the world
Normal guy with a normal job and I'm the only one disturbed?Never thought you you'd be caught
Everything leads back to you
Underneath the TV was a room they found it too
Kill yourself, kill yourself, I got the feeling that it's time you die
