

Njord

Leaves' Eyes

The God of Storms will you hear me
The shore is close but I fear it
Fjord, I am lost on my course Gardarike
Caught in a fiery temperNjord, when you touch the earth
With golden sun rays
Njord, your white palace embraced in gold
Vanir God, I am NjordSend me waves ike silk from the east
Njord nd skin of a maiden's cheeks
Nine wave maidens ariseThe ruler of winds will you save me
My hopes are strong but you guide me
I am lost on my course to Gardarike
Caught in a stormy weatherStorm lay down your sword
Silence your breath
Allay your tempest now
gir, be aware, be awareSea be calm and clear tonight
Silence your waves, Njord
