

Girl U So Fine

Slightly Stoopid

Girl, you is so fine
Hold you near to me, all the time
Things I'll do for you
Would you do for me? Hold me, tooGold is in your eyes
Need you near to me, all the time
Lord, I understand
Things you'll do for me, do to meGirl
(Girl go)
Go slow
(Nicely for a night just to live)That live for you, girl
(And move on)
Boy
(Let go)Go slow
(Nicely for a night just to live)
That's been for you world
(And move on)You're not trying
Look we need you, look we need them
Problem like their lying
You beat up within, oh, you never liked it
Better notice that they'll be wonderin' what we citin'You better than them, oh, you're not trying
Come we let you up, you won't be problem like they're lying
You'll be comforted in, oh, you never liked it
Better notice that, that they're people, what we citin'
'Cos you better than them, ohGirl
(Girl go)
Go slow
(Nicely for a night just to live)That live for you, girl
(And move on)
Boy
(Let go)Go slow
(Nicely for a night just to live)
That's been for you world
(And move on)So, when I was just a little young child
Playing every day on the streets
Until someone says, who your father is
There was a mother are you, bet that you could pleaseSpeaking of the mind that, that the friend that who will
reach
Bless sons for you but provided there would be
Spirits call out and just to understand the beats

In this wonderland world I remember the days up in the past

Time didn't matter, no

I remember the days up in the past

Time didn't matter Girl

(Girl go)

Go slow

(Nicely for a night just to live) That live for you, girl

(And move on)

Boy

(Let go) Go slow

(Nicely for a night just to live)

That's been for you world

(And move on)
