

Colorful Waste of Time

The Worn Flints

I've been looking for a conquest
I can feel it on my tongue
I hope I make the sunset
'Cause I know it doesn't take too long

And I won't get left behind
What a colorful waste of time

And I know I'm falling back again
It's only fun and games to me
I hope that I can see the end
'Cause it's over when she's done with me

It's all inside my mind
What a colorful waste of time

And I won't get left behind
What a colorful waste of time
