

Onward & Upward

Vacationer

Advisory - the following lyrics contain explicit language:

Waking up, overrun
Be on my side, finally used to it
Unoccupied, it's warming up
Silver line, bathing in light
I could get used to it, loving on time Often on I roam, onward and upward I wander on
I belong to all unknown Shapin' up, it's better news
From off on my job and what I've got to shake loose
In the wake of it all, hittin' strides, it's catching waves
It's trippin' me out, it's everything I could use to keep it all up Often now I roam, onward and upward I wander
on
Awesome glow by rogue, such a lust it's next to none
I belong to all unknown I am all in, nowhere to leave
I am often held in a dream
I am all in, aiming to please
In a movement I've found relief Overrun, waking up
Be on my side, I could get used to it
On the all the time, it's warming up
Silver line, it's bathing in light
I could get used to it
