

# Through It All There's You

Robert Palmer

You know the future will soon be past  
Climb on first, get off last  
I'm tryin' to push my stake to my hips  
Where I'll feel the benefit Through it all there's you  
Lovin' me, baby  
Through it all there's you  
Lovin' me, girl Through it all there's you  
Lovin' me, baby  
Through it all there's you  
Lovin' me, girl Grinnin' like a break  
Focusin' my way  
I'm tryin' to push my stake to my hips  
Where I'll feel the benefit Through it all there's you  
Lovin' me, baby  
Through it all there's you  
Lovin' me, girl Through it all there's you  
Lovin' me, baby  
Through it all there's you  
Lovin' me, girl Grinnin' like a break  
Focusin' my way  
And there's a place I know we can take  
Make you want, make you want the rest of it Through it all there's you  
Lovin' me, baby  
Through it all there's you  
Lovin' me, girl Through it all there's you  
Lovin' me, baby  
Through it all there's you  
Lovin' me, girl Future will soon be past  
Climb on first, get off last  
There's a place I know where we can take  
Make you want the rest of it Through it all there's you  
Lovin' me, baby  
Through it all there's you  
Lovin' me, girl Through it all there's you  
Lovin' me, baby  
Through it all there's you  
Lovin' me, girl Through it all there's you  
Lovin' me, baby  
Through it all there's you

Lovin' me, girlGet what she wants it  
Put your finger to itHey, hey, grinnin' like a break  
Focusin' my way  
There's a place I know we can take  
Make you want the rest of itThrough it all there's you  
Lovin' me, baby

Lovin' me, girlThrough it all there's you
