

Stateside

[Ray Fenwick](#)

fell in love with a crazy girl
and now I'm not alone
i never really had a heart
i never even had a home got me serving stateside
shipped me overseas
will i ever see my girl
staring back at me captivated by her style
lip gloss n' broken wings
i see the stars all in her eyes
i wonder what she's wondering standing on this fault line
this earthquake is shaking me
will i ever see my girl
staring back at me as typical
as it may seem
you've never seen the likes of a boy like me
i want her more
than anything
i have nothing,
n' she's something for me
