## Ozomatli

Advisory - the following lyrics contain explicit language:

We see a coming war  
We see a coming warNow can you imagine this world with no oppression?  
And no need to dabble in greed and transgression  
The solution for murder and prostitution  
Never glorify this pollution on televisionCorrupt an entire nation explicit images  
Never freeing Mumia regardless of proven innocence  
Turning to crime and not using intelligence  
What makes me wonder sometimes are we in hell orInches away from confronting the powers that be  
Saw in seconds what has taken some hours to see  
Temps is hot enough to melt a bullion  
More than a million people are readyFor rebellion this shit is ill sun set to the crack of dawn  
If you're black or blond  
Uncle Sam is robbing you blind and putting shackles 'pon  
The minds of your children for real son  
Beware this system and go to war with this institutionThey see a coming war  
They see a coming warThey expect those of us who peep to not see  
Medical benefits should be cheap if not free, right?  
The richest people are those without morals  
'Cuz once they get inside they tend to keep the door closedLord knows they killing us quick and clean  
From base heads to people addicted to nicotine  
Man made diseases where skin cells corrode  
To ones where if infected you die from common coldsEconomical foes they pose the true threat  
Using your tax, dollars to sell and produce death  
What's left? We got guns and drug trafficking  
Government will be backingAnd blaming Latin and African brothers for dirty work done  
The shit they do not only hurts young  
But it's provoking revolutionary circumstances slow like molasses  
This is a message to the masses never ass kissWe see a coming war  
We see a coming warEmergency, emergency, evacuate the premises immediately  
Emergency, emergencyNow open your ear 'cause slavery will appear  
When corporate cut-throats control your career  
The treats of life are toned and ain't no way the ripple fix

Beware the microchip that replaces the triple six  
Which one? Are you a soldier who fights against fraud  
Or pawns in this game on this government's chess board?  
The signs are clearly defined, it's merely your mind state  
Wars coming my people so stay awake
