

# What If

Jason Cassidy

You say  
You've heard this all before  
And you can't  
Take lies anymore  
But baby  
Before you walk out the door  
I won't make you cry  
Make you cry any more

Chorus:  
But if I'm right  
What if I'm really going to love you all my life  
What if a brand new me is standing here tonight  
Would you take my hand  
Give me one more chance

What if you're wrong  
Baby this ain't the same old sad love song  
And i just want to hold you all night long  
Oh baby!!  
What if I'm right, and you're wrong?

My jealousy's no longer  
This time I'm much stronger  
Than the man i used to be  
Don't turn your back on me  
Well i just want to kiss your face  
I swear i changed my ways  
Oh baby please please stay

Chorus:  
But if I'm right  
What if I'm really going to love you all my life  
What if a brand new me is standing here tonight  
Would you take my hand  
Give me one more chance

What if you're wrong  
Baby this ain't the same old sad love song  
And i just want to hold you all night long

Oh baby!!  
What if I'm right, and you're wrong?

Oh baby please be wrong
