

Everyday

Side Walk Slam

Here I go again, I'm on my own or is that true?
'Cause You're always around even when I'm all alone
Make life so true, yeah You're always guiding, keep on supplying
You're always with me, You're my provider
You make it known, I can't do it on my own Everyday, I feel Your calling everyday
Everyday, everyday, everyday Now again, I am feeling down and out
There's no doubt that You're right behind me
And things will all work out and be used for Your glory You're always guiding, You keep on supplying
You're always with me, You're my provider
You make it known, I can't do it on my own Everyday, yeah, I feel Your calling everyday
Everyday, everyday, everyday, yeah
