Leaving Song

Stephen Speaks

And every time I think of you
I'll remember all the good times that we've had
And every time I sing this tune
I will laugh, I will cry, I will close my eyes
'Cause I know that it won't be long(Chorus:)
Until we sing, we will write
We will laugh away the night
And the good times will never end
When we meet againAnd I'm gonna be somewhat lonely
'Cause you know no one could ever fill your shoes
As iron sharpens iron
You have taught me how to be a stronger man
And I look forward to the day I learn again(Chorus)Though I wish that I were with you now
I know there's a reason for space
I can dream of memories you're writing down
And I look forward to that day
And the smile on your faceWe will sing, we will write
We might cry and we might fight
And the good times will never end
We will laugh, we'll relax, we'll reflect on the years we've past
And I know that it won't be long, until we meet againAnd everytime I think of you
