

# Now That I Know

## Mariah Carey

Now that I know  
That you want me for me  
I can be what you want  
I can be what you need  
Now that I know  
That your love is for real  
I can finally see  
This is not make believe anymore I never knew if I could believe in you  
I thought I was just a diversion  
And you were killing some time  
My friends they told me to leave you  
They said you would never ever ever be mine  
But you gave me your love  
And you said I'm the one  
You want for the rest of your life Now that I know  
That you want me for me  
I can be what you want  
I can be what you need  
Now that I know  
That your love is for real  
I can finally see  
This is not make believe anymore I was afraid  
That it was all a masquerade  
That I was only a plaything  
And you would leave me behind  
But now I feel so secure  
By your side I can conquer the world  
'Cause I gave you my love and I know you're the one  
I want for the rest of my life Now that I know  
That you want me for me  
I can be what you want  
I can be what you need  
Now that I know  
That your love is for real  
I can finally see  
This is not make believe anymore Now that I know  
That you want me for me  
I can be what you want  
I can be what you need

Now that I know  
That your love is for real  
I can finally see  
This is not make believe anymore(I really feel it)  
So much love  
(I really feel it)  
So much joy  
(I really feel it)  
Sweet sweet ecstasy  
(I feel it)(I really feel it)  
Oh baby  
(I really feel it)  
'Cause you opened my eyes and I realize  
(I really feel it)  
Your love is for real  
(I feel it)Now that I know  
That you want me for me  
I can be what you want  
I can be what you need  
Now that I know  
That your love is for real  
I can finally see  
This is not make believe anymoreNow that I know  
That you want me for me  
I can be what you want  
I can be what you need  
Now that I know  
That your love is for real  
I can finally see  
This is not make believe anymore
