

Overdose

Exodus

[Originally performed by AC/DC] I never smoked with no cigarettes

I never drank much booze

But I'm only a man, don't you understand

And a man can sometimes lose

You gave me something I never had

Pulled me down with you

Pulled me up, think I'm in love

Hope you can pull me through I overdosed on you

I overdosed on you

Crazy but it's true

Ain't nothing I can do

I overdosed on you Oh woman you give to me

More than I can take

But listen honey, I don't mind

You're a habit I don't want to break

Don't want none of that hard stuff

Don't need it anymore

I'm in love, and I'm sinking fast

And I don't need no cure
