

# Something's About to Change

Justin Unger

Waken from your Slumber  
Look around and you will see  
Listen the Whispers  
The Lord of Creation Speaks  
Our hope is alive  
And something's about to change

## CHORUS

Open up our eyes  
Let us see into this mystery  
Something's About to Change  
We feel it in our Souls  
And it is written in the Skies  
Something's About to Change

Tested with fire  
Creation is about to see  
That there's another \_\_\_\_\_  
It's settling the captives free  
Cuz hope is alive  
And Something's About to Change

## CHORUS

Though these are darker times  
Don't let your heart be troubled  
Cast all your fears aside  
For there is Freedom in the King  
And this morning will be seen  
As Something's About to Change

## CHORUS
