Weekend Love

Grand Analog

La la
La la la la la
La la
La la
You thought that this was love
But my plan wasn't that for us
I thought that you would understand
I didn't want you for my full time man
Yea yea
I like the way you made me feel that night
It's somethin' that I can't deny
But I've been hurt before
I can't take it no more
That's why, that's why
A weekend love is all it was
(All it was)
Nothing serious because
We're playin' games, we're only young
(Ohh)
Get with it, it was just a weekend love
Thought you'd break the rules
You thought that I would be a fool
But now that the tables have turned
This is a lesson you didn't want to learn
(Laa)
I like the way you make me feel inside
It's somethin' I just had to try
But I've been hurt before
I can't take it no more
That's why, that's why
A weekend love is all it was
(That's all it was for me)
Nothing serious because
(Just because)
We're playin' games, we're only young
Get with it, it was just a weekend love
(Just a weekend love)
A weekend love is all it was
(That's all)

(It was)
Nothin' serious because
(Nothin' serious because)
We're playin' games, we're only young
(Na na na)
Get with it, it was just a weekend love
(A weekend love)
Don't try to make me believe
That you'd never hurt someone
Now that pain has come back to you
You thought the love you had was true
And now you don't know what to do, aah
Everytime I turn around you're standing' right there
I really don't want you and I really don't care
I can't think about you no, no forever
What we had was good but there's much, much better
You try to blame me, I'll put the blame on you
(Yea)
You play the game baby, I can play the game too
(Yea)
You say you want me back, it's a simple fact that
Dark child and all my girls got my back like that, yea
(Spice girls, dark child)
A weekend love is all it was
(Aaa)
Nothing serious because
(Serious because)
We're playin' games, we're only young
(Ooh yea)
(Games 'coz we're only young)
Get with it, it was just a weekend love
(Ooo oh ah aah)
A weekend love is all it was
Nothing serious because
We're playing games, we're only young
Get with it, it was just a weekend love
A little weekend love
