

Star Sign

[Ryan Adams](#)

Runaway rain
I see you dancing on the wind
Try not to cry
One day they will let you in
Ghost breathing down your neck
Chairs moving in the night
Something's whispering your name
You, you go sailing through the sky
Ooh, straight into the fire
Nightwatchmen come
Take these chains from the door
Rewrite the books
I will blindfold the guards
Like a battleship of sky
Blasting clouds from the blue
Just as gray as a sigh
You, you go sailing through the sky
Ooh, straight into the fire
You, you go sailing through the sky
Like my star sign
Like my star sign
