

# It's Hard

## Effie

You dropped the bomb  
It hit me like cancer  
Think the other side of the world is the answer?  
Such a shame to throw it all away  
You said you didn't love me like yesterday I...  
Sit and wonder now that you're 'under'  
What it would be like to just hold each other  
(uh uh uh hold each other)I find myself when I'm with you  
But its hard when I'm with you  
'Cause you're breaking all of my heart  
I can feel it soaked in my soul  
But its with you  
Oh woah oh oo oh oo ohIt's hard loving you  
Push my way through  
To keep loving you  
Stay up on it  
It's hard loving you  
So push your way through  
I'll keep loving you  
I know you want it  
(repeat)It's hard oh oh it's hard  
Never really know till you've gone too far  
It's hard oh oh it's hard  
Never really know till you've gone too far.Another bomb and it felt like treason  
Now I'm a prisoner of my heart and you're the reason  
Hurts inside but you never let it show  
You knew i would push and I wouldn't let it go now  
It torments me right while I'm sleeping  
Gotta get this out and tell you how I'm feeling  
Open my eyes it feels like you tease me  
I know it's hard but you don't make it easy...Bridge  
Chorus'I'll keep loving you"  
"I'll keep loving you"It's hard oh oh it's hard  
Never really know till you've gone too far  
It's hard oh oh it's hard  
Never really know till you've gone too far
