

Song For A Dreamer

Procol Harum

I will meet you on the other side of the moon
The doctors say that they must operate soon
But there's no knowing what they'll find when they open up the wound
I will meet you on the other side of the moon
I will meet you at the bottom of the sea
We will lie inside the ocean and scheme
Our friend the Arab will guide us while we dream
I will meet you at the bottom of the sea
