

Count

Hayley Reardon

Here we go talking
We're talking like people now
Moving our hands around, ooh
Here we go walking
We're walking like people now
Wishing our hearts made sounds
Half as loud as our footsteps do
And oh, maybe in the last round
We can lay our heads down
And say it only mattered cause we made it matter
We made it all, we made it all count
The days they go turning
We fold them like pages now
Tape 'em up in the boxes
We don't need those old books here laying around
That's when the people get talking
Let the words steal their heartbeats again
Remember the moments in boxes
We thought useless
Thank god they're still under our beds
And oh, when you're looking from the last round
You're laying with your head down
You'll say it only mattered cause we made it
It only mattered cause we made it home
