I Can Only Think Of One

Dierks Bentley

Pullin' into the fast lane
On the leavin' side of town
Just me and the dreams I've left undone
There's a whole lot of roads
That I could point this Chevy down
But I can only think of one
On this river concrete slab
A man could drive for days
And let his imagination run
There's time for a million memories along the way
But I can only think of one
Oh, I can only think of one
Summer down in Galveston, underneath the stars
A fire burnin' on the sand, ragin' in our hearts
If there's a time in my whole life
I've really been in love

I can only, I can only
I can only think of one
I'm not gonna turn back
'Til I'm back to where you are
To undo the damage that's been done
There may be a hundred ways
To mend this broken heart
But I can only think of one
Oh, I can only think of one
Summer down in Galveston, underneath the stars
A fire burnin' on the sand,
And you back in my arms
If there's a time in my whole life
I've really been in love
I can only
I can only
I can only think of one
