

# I Can Only Think Of One

**Dierks Bentley**

Pullin' into the fast lane  
On the leavin' side of town  
Just me and the dreams I've left undone  
There's a whole lot of roads  
That I could point this Chevy down  
But I can only think of one  
On this river concrete slab  
A man could drive for days  
And let his imagination run  
There's time for a million memories along the way  
But I can only think of one  
Oh, I can only think of one  
Summer down in Galveston, underneath the stars  
A fire burnin' on the sand, ragin' in our hearts  
If there's a time in my whole life  
I've really been in love

I can only, I can only  
I can only think of one  
I'm not gonna turn back  
'Til I'm back to where you are  
To undo the damage that's been done  
There may be a hundred ways  
To mend this broken heart  
But I can only think of one  
Oh, I can only think of one  
Summer down in Galveston, underneath the stars  
A fire burnin' on the sand,  
And you back in my arms  
If there's a time in my whole life  
I've really been in love  
I can only  
I can only  
I can only think of one
