Melody Road

Neil Diamond

Melody road I'm on with you
All the way to the end
I know every song you lead me to
Is gonna be my friend
Melody road I play all night
Take my guitar and strum
Find me some words that feel just right
The music's gonna come from Melody RoadMelody from the heart,
Melody from the start,
Telling things will be okay
I think that I just might stay
On Melody RoadMelody Road, let's go a mile
I'll tie on my rambling shoes
Write me a song to make you smile
There's no need to sing the blues,
On Melody RoadMelodies that unfold,
Melodies made of gold,
Making up songs along the way
I'm thinking I just might stay
On Melody Road
