The Takedown

Yellowcard

I feel things changing when I move (Its a distance, its a difference) I'll cross this planet without you (And you might call this a downfall) Its one long night that I'm passing through (Its a dark one, what have I done?) Its one long nightDon't turn your back on me now You can't do this Don't say you can live without You can't do this aloneHow did I end up like this The lonely one Your greatest takedown? You take me downLeft last night with a long goodbye (With some red wine through a phone line) I told you thoughts that multiply (That I don't know how to let go) We've been here many times before (I am empty when you leave me) What's one more?Don't turn your back on me now You can't do this Don't say you can live without You can't do this aloneHow did I end up like this The broken one Your greatest takedown? You take me down You take me downI won't get by I won't heal in time I won't get byDon't turn your back on me now You can't do this Don't say you can live without You can't do this aloneHow did I end up like this
