Take Me Away

Plain White T's

I know we just got here but I think it's time to go
I didn't want to believe it but now I know
You know who just walked in and she didn't come alone
I can't stand to see this get me homeTake me away, I'm gonna hurt somebody
Take me away right now
How could she say, she wanted more you better
Take me away right nowI thought she was perfect, she thought I was perfect too
Perfect until she found someone new
Now I'm stuck here watching her, I can't take this abuse
What does this guy do that I can't do?Take me away, I'm gonna hurt somebody
Take me away, right now
How could she say, she wanted more you better
Take me away, right nowTake me away, I'm gonna hurt somebody
Take me away, right now
How could she say, she wanted more you better
Take me away, right nowTake me away
Take me away, right now
How could she say, she wanted more you better
Take me away, right now, right now
