Baby I Know It

Johnny Reid

When I was a boy, 15 years old, I asked my mama "if I find the one, how will I know it, how will I know it?"
She said "son, you're still too young, but trust me when you find the one, you'll know it, yeah baby, you'll just know it.
And I never really understood 'til I laid eyes on you

Now every day and every night, every time I look in your eyes
I know it, baby I know it
Every kiss, every touch, every time we make love
I know it, baby I know it,
you're the one, I know it!

When I was girl, 16 years old, I asked my daddy "if I find the one, how will I know it, how will I know it?"
He said "baby girl, you're still too young but trust me when you find the one, you'll know it, baby, you'll just know it
And I never really understood 'til I laid eyes on you.

Now every day and every night, every time I look in your eyes
I know it, baby I know it
Every kiss, every touch, every time we make love
I know it, baby I know it,
you're the one, I know it!

And I never really understood (no I never really understood) 'til I laid eyes on you (eyes on you)

Now every day and every night, every time I look in your eyes
I know it, baby I know it yeah!
Every kiss, every touch, every time we make love
I know it, baby I know it,
you're the one, I know it!
you're the one, I know it!
baby you're the one, I know it!
