The Fight

Normand Corbeil

We are born, we are born
We are born, we are born
We are born, we are born
We are born, we are born
We are born, we are born
We are born, we are born
We are born, we are born
We are born, we are born
We are born
Without a care
As we grow old
Become aware
As we grow tall
Begin to falter
We want to know ourselves
Give love to all
But we falter, yes, we are human
Yes, we anger, we feed the hunger
Yes, we push through, just me and you
We made it through the darkness to the light
Oh, how we fought yet still we won the fight
Oh, yes, we stand together
A fantasy for you and me
Though beauty lies in reality
No need to fear, the truth sets us free
We're all looking for love and harmony
But we falter and yes, we are flawed
As we play victim with such conviction
And we play bully, both you and me
We made it through the darkness to the light
Oh, how we fought yet still we won the fight
Oh, yes, we stand together
Took it day by day, worried we would fail
How we flailed and we wailed and we screamed in pain
Take it step by step, we could not forget
The wounds we felt, how we screamed for help
And the dark, dark nights when you held me tight
And we'd wait for light to rescue us
Oh, we were distressed, now we're nothing less

We are strong, we are blessed, we are united, yeah
We made it through the darkness to the light
Oh, how we fought yet still we won the fight
Oh, yes, we stand together
We made it through the darkness to the light
Oh, how we fought yet still we won the fight
Oh, yes, we stand together
