

Like There Ain't No Yesterday

BlackHawk

I've been livin' my life like a man in chains

Ever since she took her love away

But this is now and that was then

And baby, all bad things gotta come to an endSo tonight I'm throwing caution into the wind

Getting down to the business of living again

Back in the saddle and I'm holding the reins

Gonna find someone and love her like there ain't no yesterdayNow it's dark as a dungeon down where I've been

And there ain't no way I'm going back again

I got my best foot forward on to greener grass

'Cause there ain't no future living in the pastSo tonight I'm throwing caution into the wind

Getting down to the business of living again

Back in the saddle and I'm holding the reins

Gonna find someone and love her like there ain't no yesterdayOut of the ashes, alive and free

No longer a slave to a memory

Got the rest of my life right out in front of meSo tonight I'm throwing caution into the wind

Getting down to the business of living again

Back in the saddle and I'm holding the reins

Gonna find someone and love her like there ain't no yesterdayTonight I'm throwing caution into the wind

Getting down to the business of living again

Back in the saddle and I'm holding the reins

Gonna find someone and love her like there ain't no yesterday
