Heritage

Inventions

Everyone wants to belong
To know where we come from
What makes us unique
What makes us complete

Our strength lays in unity
Alone it's easier to fall

We're leaders of the pack now
Others to guard our backs now
To keep them safe we'll fight
Always in shadow, ever in the night

War is not a game to be set aside
The truth of innocence is shattered inside

So I cry in the night
Howling in this darkness
Praying to be heard
To know I'm not alone
The fire in my soul
And shadows in my heart
My weapons and shield
Draw them tight around me

A vow I made to myself, my friends, my family
I'll not see them fall as I did
Protect with everything that I am
Shadows and flame heed our call
We'll stand together through it all

So we cry in the night
Howling in this darkness
Praying to be heard
To know we're not alone
The fire in our souls
And shadows in our hearts
Our weapons and shield
Draw them tight

Cry in the night
We are not alone
