Electric Gypsy

L.A. Guns

YeahI need the Harley wind
Blowing in my hair
Five thousand miles I've roamed
Now I'm gettin' there
This is my destiny
The way that I choose
Don't need no one to talk about
Love and bluesRound, round
Up and down
Move so fast
Never touch the ground
High, high
Touch the sky
Don't come down
Don't make me tryLost in space
Or any other place
Putting my dreams
On the moving place
Gypsy
Electric gypsy
Round I'll goYeahI remember way back when
I was just like you
Yeah, I gave myself to live
But I didn't have a clue
I got it suddenly
Chromium steel
Seven hundred and fifty reasons
Why I can't stand stillOh no
Here I go
Gotta keep moving
Gotta let go
Another turn
Another girl
Can't stand still
'Til I've seen the worldAnd I've seen the world
When I cry
Get in my spaceship
Watch me fly
Gypsy

Electric gypsy
Round I'll goYeah
Ooh
AhhDon't need no one to tell me
To settle down
Life in the fast lane suits me
To the ground
This is my destiny
The way that I choose
Don't need no one to talk about
Love and bluesRound, round
Up and down
Move so fast
Never touch the ground
High, high
Touch the sky
Don't come down
Don't make me tryLost in space
Or any other place
Putting my dreams
On the moving place
Gypsy
Electric gypsy
Round I'll goGypsy
Electric gypsy
Gypsy
Electric gypsy
Round I'll go
Gypsy
Electric gypsy
Round I'll go
Gypsy
Electric gypsy
Round I'll go
Gypsy
