Amnesia

Xplore Yesterday

Nothing in my way has a meaning
This world has caught up in my brain.Why am I here in the middle of nowhere
I feel just like I am an irrecoverable zombie
Help me to find the things in time, that I miss,because
I need to know who I am and where I go.The answer is in the past, I think itâ€™s amnesia
Locking for pieces of memories(memories). All scatterd in my foggy mind.
Trying to link them.It is just too hard.I was spending my blood(this stuff turned back)
Help me to find the things in time, that I miss,because
I need to know who I am and where I go.The answer is in the past, I think itâ€™s amnesia
Long that I find the things inside, that were missing
I still need to know who was in that car.She looked familiar.
My deer just stopped to help me after the death(death)
