

# Bodiless Sleeper

## Spawn of Possession

Advisory - the following lyrics contain explicit language:

Sunless skies stared at him as he escaped  
Warned by doctor after doctor but nothing could keep him away  
From that which for years had kept him insane  
Obstinate and keen to seek out all remaining elements pertaining the blemish on  
his soulRan off with a strong conviction that what he had seen was real and not  
imagination  
He knew it, he felt it, all those pigs in white scrubs tried to fuck his mindLocked away since that delirious day  
but now free by choice to once again  
Rattle the forbidden cage, deep in those treacherous woods he found it  
A spot on the ground, marked with the three pebble stones he once found  
He shouldve walked away instead he ferociously began to dig deepClawing through the dirt and roots, unfed  
desire, a resurrection at last shall  
spire  
With nervously chewed down finger nails, kept on delving further down  
What he finally found was breathing still, breath of theBodiless sleeper revived, tender skull acquiredDeformed  
beyond reason, he gently pulled it out of its hole  
Lips touched, tongues played, time to do what had remained uniqueInsurgent abominator wrecker of all shifting  
prayer  
Though no one can comprehend its meaning and its act  
Bodiless sleeper revived  
All the knowledge in this head he now possessed to stir from resting  
Forever since he got caught he knew replacement was the key  
Tender skull acquiredTheir bristly chins scraped one another  
As he measured between his shoulders  
He made a mark at his neckline  
Where the blunt and rusty saw soon would be placedClosed his eyes and let the jerking motion cut to finally  
remove the weakness  
His head fell off yet still alive, his headless body replaced it fastSlowly he worked with a needle and thread to  
carefully secure the head  
Connected they fused very well, the stitches healed so nicely  
This body now wanders around slightly confused but with knowledge like few  
Under the three pebble stones, grave of the head is now empty
