Crush On You

Tata Young

I wish upon a star
Wanna be right where you are
You set my world on fire
Babe I got a crush on you
I wish upon a star
Can't you see how right we are
We should be together
Babe I got a crush on you
I used to turn around and walk away
Never stopped to play
Cause there was no attraction
But in my heart you start to grow on me
Kind of a suddenly
So now I've changed direction
Knowing it might seems strange
Love came over me
Feeling the luck has changed
Do you want me, like I want you?
I wish upon a star
Wanna be right where you are
You set my world on fire
Babe I got a crush on you
I wish upon a star
Can't you see how right we are
We should be together
Babe I got a crush on you
In this cold world, where dreams are few
Baby, I want you
Is it too much to ask for?
I'll take you places where you never been
If you just give in
So babe, it's now or never
Knowing it might seems strange;
Love came over me

Feeling the luck has changed
Do you want me, like I want you?
I wish upon a star
Wanna be right where you are

You set my world on fire
Babe I got a crush on you
I wish upon a star
Can't you see how right we are
We should be together
Babe I got a crush on you
Me and you, you and me. Living a life in harmony
Oh, It's magic, magic, magiccccc. babe I've got a crush on you
Me and you, you and me. Living a life in harmony
it's magic,magic cos baby I've got a crush on you
So if you feel the way I do
Would you fancy to ..
To take a ride beside me?
Me and you, you and me. Living a life in harmony, it's magic.
Oh, It's magic, babe I've got a crush on you
Me and you, you and me. Living a life in harmony
it's magic oh it's magic. baby I've got a crush on you
I wish upon a star
Wanna be right where you are
You set my world on fire
Babe I got a crush on you
I wish upon a star
Can't you see how right we are
We should be together
Babe I got a crush on you
I wish upon a star
Wanna be right where you are
You set my world on fire
Babe I got a crush on you.
