Never Let Go

Close To Home

Someone please save me I'm alone,
I'm falling further down,
Lift me up,You know that I'm never gonna' let you down,
(I wont let you down)
You know I'll always be aroundWhen no ones there by your side,
I'll be your comfort tonight,
Just find the strength that you have lost insideI'm falling down,
I'm buried alone,
I need your arms to hold me,
To hold me close,I'll be the light in your eyes,
When you cant find the strength to survive,When no ones there by your side,
I'll be your comfort tonight,
Just find the strength that you have lost inside,
A way to make it out,
A path to call your own,
You'll find your place here,
This is your loving homeChorusYour not alone,
This is your loving,
This is your loving home,When no ones there by your side,
I'll be your comfort tonight,This is your loving home
