Under My Skin

Blue System

You can knock me out, you can take my friends
But you'll never get me down
You can take my job and the story ends
I'll never be your clownYou can tease me, squeeze me, push me around
But you'll never get me down
Take my heart up we go
Help me moreTake my pride, hurt me more
Shut up the door
Take my soul and take my money too
You never get me down, it must be love it's trueI've got you under my skin
Under my heartbeat, under my love
Under my skin
Hang on my love sweet
Baby, my love, oh it's too deep
It's under my skinTake my home, take the place I go
But you'll never get me down
Baby, when I fall I stay up and grow
I'll never leave this townYou can cheat me, lead me, push me around
But you'll never get me down
Take my heart up we go
Playing your gameTake my pride, I pick up the pieces again
Take my soul, oh, take my body too
You never get me down it must be love it's trueI've got you under my skin
Under my heartbeat, under my love
Under my skin
Hang on my love sweet
Baby, my love, oh it's too deep
It's under my skinI've got you under my skin
Under my heartbeat, under my love
Under my skin
Hang on my love sweet
Baby, my love, oh it's too deep
It's under my skinIt's under my skin
It's under my skin
